

Data Source: Iowa Dept. of Education, [Proficiency by District](#)

Notes: Assessment proficiency data includes Partial Academic Year (PAY) students who participated in the ISASP or the Dynamic Learning Maps (DLM) alternate assessment. Remote testing results are not included. Excludes English learners who are in their first or second year enrolled in the U.S. The 2018-19 column does not include 9th grade data as this grade was not a state required testing/reporting grade during that year.

State Average: 89.65

What does this score mean?

The 4-year graduation rate represents the percent of students who completed high school on-time within 4 years. The 5-year graduation rate shows the percent of students who needed an additional year to complete high school. The 4-year graduation rate shown is for the class of 2023, and the 5-year graduation rate is for the class of 2022.

Understanding Overall Performance

The overall performance includes both an overall score and performance rating for all Iowa schools across a number of performance measures. In addition, the Every Student Succeeds Act performance category identifies schools who are struggling or who have student groups who are underperforming. The overall score provides a single number which is the sum of the measures below. It provides a snapshot of school performance, but may not tell the entire story about performance of students in that school.
